Professional Summary

Currently pursuing a B.Tech in Information Technology with hands-on experience in full-stack, software development, and data analytics. Proficient in designing scalable web applications, developing secure RESTful APIs, and building AI-enabled solutions for real-world challenges. Strong technical foundation in Java, Spring Boot, React.js, databases, Docker, and modern development tools. Quick learner with strong problem-solving skills, collaborative mindset, and commitment to delivering high-quality, impactful software solutions.

Experience

Java Full Stack Developer Intern — Jan 2026 – Present
Cognizant Technology Solutions, Chennai — *Chennai, Tamil Nadu*

- Develop enterprise web applications using Java, Spring Boot, and React.js in Agile teams.
- Build and integrate REST APIs with MySQL databases.
- Containerize applications using Docker and support development, integration, and deployment processes.
- Collaborate through Git/GitHub workflows, code reviews, and version control best practices.
- Create responsive user interfaces using React.js and Bootstrap.

Data Science & Backend Developer Intern — Jun 2024 – Aug 2024
Chennai Unified Metropolitan Transport Authority (CUMTA) — *Chennai, Tamil Nadu*

- Analyzed transport datasets using Python and Pandas to generate operational insights.
- Built an AI-powered vehicle count dashboard using Tableau Public.
- Developed Flask REST APIs integrated with PostgreSQL and MongoDB.

Projects

BedMaster – Hospital Bed Orchestration System | *React.js, Spring Boot, MySQL*

- Built a patient flow management platform automating admission, discharge, cleaning, and reassignment workflows.
- Developed smart bed allocation logic based on clinical requirements and ward constraints.
- Designed real-time dashboards for bed managers and EVS teams.
- Implemented secure microservices with Spring Boot.

Smart Parking System – AI Vehicle Detection & Tracking | *React.js, MongoDB, YOLO, OpenCV*

- Developed an AI-based parking automation system for slot tracking and billing.
- Used YOLO and OpenCV for vehicle detection, classification, and plate recognition.
- Built dashboards for occupancy and revenue monitoring.

Technical Skills

Languages: Java, Python, SQL, HTML, CSS, JavaScript
Frameworks: Spring Boot, React.js, Node.js, Bootstrap
Databases: MySQL, PostgreSQL, MongoDB
Cloud/DevOps: Docker, Git, GitHub
Analytics Tools: Tableau, Power BI, Pandas
AI/Computer Vision: YOLO, OpenCV

Education

B.Tech – Information Technology Jun 2022 – Present
Sri Sai Ram Institute of Technology *CGPA: 8.04/10*

Higher Secondary (12th) – Computer Science 2022
St. Mark's Mat. Hr. Sec. School *82.3%*

SSLC (10th) 2020
St. Mark's Mat. Hr. Sec. School *67.4%*

Certifications

MongoDB Basics Certification

Big Data Computing – NPTEL

Cloud Computing – NPTEL

Leadership & Volunteering

Student Volunteer
Bharath Scouts & Guides
- Supported sustainability, leadership, and health workshops during Diamond Jubilee Jamboree.
- Coordinated participant engagement and event activities.

NSS Volunteer
Sri Sai Ram Institute of Technology
- Organized medical camps and village service initiatives.
- Led volunteer teams and coordinated logistics for community outreach.

Languages

- English – Native / Professional
- Tamil – Native / Bilingual
